## GIZA CEILING LAMP

### STEP 01

Switch off power at the main electrical panel before installation. Ensure the electrical connection point is properly installed and secured.

### STEP 02

Attach the mounting plate to the ceiling using the provided screws (Part B).

### STEP 03

Connect the wires as follows. Brown or black to L (live), blue to N (neutral), green/yellow to earth (ground). Ensure all connections are secure and properly insulated.

### STEP 04

Attach the canopy to the mounting plate and secure it with the provided hardware (Part E).

### STEP 05

Secure the lampshade to the fixture (canopy and electrical assembly) using the socket ring provided.

### STEP 06

Insert one E27 LED bulb (not included). Restore power and test the fixture.

## GIZA CEILING LAMP

### HOW TO CLEAN YOUR LAMP

Turn off power before cleaning. Clean with a soft, dry cloth only. Do not use water or harsh cleaning products.

### GOOD TO KNOW

For dimming, use a dimmable bulb with a compatible dimmer.

### SOLD SEPARATELY

Light bulb sold separately.

EBUR recommends the E27 LED light bulb (max. 10W) with a warm color temperature of up to 2700 K.

### IMPORTANT NOTICE

This product complies with applicable European safety standards. Installation should be carried out by a qualified electrician.

### END OF LIFE OF THE PRODUCT

This product must not be disposed of with household waste. Please dispose of it in accordance with local regulations and recycling requirements.
